The mission of the Student Veterans Resource Center (SVRC) is to serve as the go-to location for wayfinding and entry into an array of services offered by the university, while providing wide ranging support to and advocacy for our student veterans. The SVRC does this by offering services and programs focused around three broad goals: (1) ease transition into UGA; (2) enable access to services; and (3) facilitate career readiness.

What We Offer

The SVRC lies at the heart of a university support system that is tailored to address the wide-ranging needs of our student veterans. We provide:

- A convenient point of contact
- An evolving network of university-wide partnerships working to continuously improve programs and services
- A connection to other student veterans, a relaxing lounge, and a range of diverse opportunities that enable student veterans to engage meaningfully with the University of Georgia and/or the surrounding community
